FREE THOUGHTS ON THE SUPREME BEING.

MR. EDITOR:—I promised your readers to show from historical data what degree of reliance is to be placed on the authority of the Fathers, in connection with the unintelligible dogma of three Gods in one God. All know that the early fathers were not remarkable for the practice of those precepts that characterize the teachings of the man of peace, whose followers they were, nor were they much behind their brethren of the present age in the manifestation of the spirit of bitterness. Very early after the dawn of the Christian era controversies arose and continued for centuries. One cause of disagreement was the duration of punishment for the unconverted. We shall see that they have had a worse time in settling that question for their God, than in giving to his son equality with him, for the punishment question lasted till into the present century; and the credit for the first successful step must be given to the Universalists. Quite lately the Rev. Henry Ward Beecher repudiated the doctrine, taking himself and his church clear by the burning lake, brimstone and all, in perfect safety. I find more of our clergy are quietly getting over it, and had rather say no more about it. But still beholding all in the Supreme Being, and all subject to the law of compensation, and that these "laws are perfect, converting the man." We rise above all such difficulties, and see in the endorsement of essential good, that all will be brought out of even the darkest conditions. The difference between the Fathers as to weether the doctrine of the unity (or oneness) of God should be declared orthodox or otherwise we will now examine.

The bishops who favored the unity of God were called Arians, from the name of their leader, Arius. Those who contended that Christ was the son of God and equal with him were called Athanasians, from their leader, Athanasius. The Holy Ghost dogma was not even suggested, as now taught, for more than fifty years after this controversy commenced. It commenced in 322 years after Christ, and the reader will bear in mind, that these were the days of manuscripts from which the New Testament has been selected.

In 322 Alexander, bishop of Alexandria, convened a council of nearly 300 bishops to deliberate on the much vexed question of the equality of the son with the father. This council condemned Arius and his followers as guilty of heresy In 323 Eusebius of Nickodemia, and other bishops, held a council at Bythnia, and pronounced Athanasius heretical and Arius orthodox. In 324 Hosius held a council at Alexandria and attempted to effect a reconciliation of the fathers, but without effect. This council pronounced no decision. In 325 the celebrated council of Nice was held, presided over by the crimson handed Constantine. This council decided in favor of Athanasius, but we cannot find that any decision was given as to the Holy Ghost.

In 335 the council of Tyre was held. Sixty eastern and forty western bishops were present. Athanasius was forced to appear at this council as a criminal, and by decree was deposed from office. In the same year the council of Jerusalem was held and decided in favor of Arius—the Unity of God. In 338 the council of Constantinople was held. This council deposed the presiding bishop, and elected Eusebius of Nickodemia in his stead, because of the adherence of the latter to the doctrine of Arius.

In 340 a council was held at Alexandria which decided in favor of Athanasius. In 341 a council was held at Rome, which acquitted Athanasius of the sentence of deposition pronounced against him at the council of Tyre, in 335. In the same year a council was held at Sirmium which decided in favor of Athanasius. Immediately thereafter a council was held by Eusebius and his friends at Antioch. This council chose a bishop by the name of Gregory to fill the see of Alexandria, which had been assigned to Athanasius, and sent him thither so seize the same by force. Athanasius hearing of this fled to Rome.

In 342 a council was held at Antioch which decided the opinions of Arius to be orthodox, and adopting a confession of faith—admitting the doctrine of Athanasius, that the son was equal to the father. In 345 another council was held at Antioch which declared for Athanasius.

In 347 the council of Sardius was held, in which there were seventy eastern and one hundred western bishops. Those from the east made known their determination not to sit in council, unless Athanasius and his adherents were condemned and excluded from the comunion. To this the western bishops refused to accede, and the eastern bishops withdrew from the council—but reassembling at Philippopolis, they wrote a synodical letter, dating it at Sardica, addressed to all the bishops of the world, accusing Athanasius of great wickedness.

It 353 the council of Arles was held, which subscribed to the condemnation of Athanasius. A few of the bishops refused to subscribe and were banished. In 355 the council of Milan was held—three hundred bishops were present. This council condemned Athanasius. In 357 a second council was held at Sirmium. At this council the word consubstantial was rejected, and the father declared to be greater than the son. In 358 another council was held at Antioch. This council condemned the word consubstantial also. In 359 a second council was held at Sirmium which declared in favor of Athanasius.

In 360 a council was held at Constantinople, which adopted a semi-Arian creed, rejecting the term substance as applied to the son.

In 361 yet another council was held at Antioch, which declared that the son was not at all like the father in substance, but was created of nothing. (They were inspired, you see—progress) In 362 a council was held at Alexandria, and another in Italy the same year, and in 365 a council was held at Lamsicus. All of these councils decided in favor of the doctrine of Athanasius. On the other side seceeding the year 365 the bishops favoring the doctrine of Arius, held a number of councils, one at Smyrna, one in the province of Pamphylia, and one in Lycia.

In 368 the emperor Valens held a council which decided in favor of Arius. This was followed by the council of Rome under Damosius. This council sent forth a synodical letter against the Arians.

In 381 the council of Constantinople was held. This council decreed in favor of the doctrines of Athanasius—the equality of the son with the father—and likewise adopted for the first time in the history of the church, the doctrine of the personality of the Holy Ghost.

These councils comprised but a portion of those which assembled during the fourth century of the Christian era. During this century there were nineteen councils that decided in favor of the doctrine of Athanasius—the equality of the son with the father, and nineteen councils, the same number, that decided in favor of Arius—the oneness of the common Father. How little reliance is there to be placed on the knowledge and authority of the fathers in this matter! The same number of councils were held by each—which councils were inspired? This doctrine of Athanasius became the accepted faith of the church some time in the early part of the fifth century, after physical force and bitter persecutions had done their work.

Let our colored race do the same amount of work three or four hundred years from now, and they might make John Brown the son of God in the same way. It is not strange that the early fathers should have adopted this error, for the best authorities state Justin Martyr, Turtullian, and nearly all the early fathers came out from the Platonic Philosophy and joined the Christians, consequently were educated in the belief of many Gods. And we know how difficult it is to overcome the bias of early education.

But the doctrine of the Holy Ghost is not a doctrine of the Bible. My reasons for discrediting this dogma are easily stated. The Greek word in the New Testament in this connection translated Ghost is Puerna, the precise meaning of which is mind or breath. It certainly is incorrect and unwarrantable to attempt the construction of these words into a personality; and the translators of the King James version were sadly ignorant, or lamentably biased by their educational faith. The Holy Breath of God would certainly be a more correct and appropriate rendering of the Greek sentence, that is translated into the Holy Ghost; for we can readily recognize the Holy Breath of God in the universally operative laws in nature, a sin against which cannot be forgiven, but the legitimate penalty must be inflicted—there is no escape; and, too, through the same Holy Breath in all nature we realize the universal omnipresence of the everlasting Father, The Generative Energy.

Upon the dawn of the Protestant reformation in the sixteenth century, through the partially successful efforts to establish the right of private judgment, the beautiful conception of the oneness of the common Father, came up amid the conflicting dogmas of that period. It met with strong opposition from both Catholic and Protestant. The faithful Servetus would not recant, and he was made to ascend to a brighter world through the fires of martyrdom,—kindled at the instigation of the cold hearted Calvin. The Unitarian faith was held at the peril of a man's life, yet many were found professing it, and Geneva, where Servetus was martyred, became, and is now, one of the strongholds of this faith in Europe. Generally the outspoken believers in the unity of God have been few, for the doctrine has been opposed by the combined Catholic and Protestant world. But among them are some of the brightest intellects that have contributed to the mental illumination of our globe. Sir Isaac Newton, John Locke, Nathaniel Lardner, and even Dr. Isaac Watts, in the last years of his earthly existence, became a Unitarian. But I am burdened with thoughts, and this article is too long—What shall I say in conclusion? I believe that Infinite love and Infinite wisdom combined are ruling throughout all worlds. The Divine principle of intelligence is forever inspiring the world of matter and the world of mind; and with what feelings of reverence and joy do I contemplate these lines:

"Infinite God! thy presence is made known
Throughout created things, the same unaltered,
Unalterable Divinity of mind,
That animates all nature, permeates
All space, and by laws with thy own Being
Co-existent, all being else sustains.
Great principle of good! thy presence is made known
Where existences are born and recreate
Where'er is motion, whether in the muttered thunders
Of earth's diurnal revolution, or the pulse
Unseen of granite life, and further still
Within the depth of being vast, where thought
In the Great Infinite is lost, and mind
Outstripped essays no higher flight—Aye,
Throughout created universes that roll—
In grand sublimity beyond the boundary of thought,
There art thou felt and known, Eternal
All sustaining principle."

Aye, man will one day know that God is as near to his soul, as matter is to his sense, that mind like matter is a unit, that all mind is in some sense God's mind, each individual expression coming in rapport with the highest wisdom it is capable of attaining to, as all successive stages of development are evolved.

O, then, with what profound emotion and filial affection can we adopt, under all circumstances, the language of this poet:

Thou art the life;
To thee, then, do I owe each beat and breath
And wait the ordering of the hour of death,
In peace or strife.

Thou art the light:
To thee, then, in the sunshine or the cloud,
Or in the chamber lone, or in the crowd,
I lift my sight.

Thou art the truth; [of yore
To thee, then, loved and craved and sought
I consecrate my manhood o'er and o'er,
As once my youth.

Thou art the strong; [night
To thee, then, though the air is thick with
I trust the seeming, unprotected right,
And leave the wrong.

Thou art the wise;
To thee, then, do I fetch each useless care,
And bid my soul unsay her idle prayer,
And hush her cries.

Thou art the good;
To thee, then, with thirsting heart I turn,
And stand, and at thy fountain hold my urn
As, aye, I stood.

Forgive the call;
I cannot shut thee from my sense or soul,
I cannot lose me in the boundless whole,
FOR THOU ART ALL.

PROGRESS.

A VALUABLE INVENTION.

The Philadelphia correspondent of a Memphis paper says:—A. Watson Atwood, of this city, has just had a patent granted for a Baltimore party, which is destined to make an immense saving at the press. It is one of the simplest of inventions, and can be put any place in the Northern or Southern States. The patent consists in the manufacturing of paper from the reed cane growing on the banks of nearly all your southern streams. It is singular that this article had not been utilized before. Reed can be had for the cost of cutting it—say one dollar per ton. Forty per cent of it can by this process be turned to fiber and pulp, at a cost of from one to five cents per pound. The very best flat paper can be made at a cost of 7 cents, and news at from three to five. The patent is owned by a widow lady of Baltimore, whose husband for many years experimented, and at last brought the matter to perfection. For bagging material, ropes, etc., it is believed to have no equal; and the resources of the Southern states for the raw material are absolutely boundless.—Mr. Atwood, as attorney for the patentee, is selling rights to put up mills under the patent.

Printers consider every letter a capital one which contains a remittance.

A little school girl in Massachusetts asked her teacher what was meant by Mrs. Grundy, the teacher replied that it meant the world. Some days after the teacher asked the geography class to which this little bud of promise belonged, 'what is a zone?' After some hesitation this little girl brightened up and said, 'I know; its the belt around Mrs. Grundy's waist.'

Politeness is a spontaneous movement of a good heart and an observing mind. Benevolence will teach us temperance toward the feelings of others, and habits of observation will enable us to judge promptly and easily what those feelings are.

Scenes at a Charity Fair—Young lady: 'Sir, wouldn't you like to buy some tickets in a punch bowl?' Gent: No, I thank you, I never drink.' Lady 'Well will you buy some some cigars?' Gent: 'No, I never smoke.' Lady, (in a huff), 'Well, I'd offer you some soap if I thought you ever washed!'

ANNE HATHAWAY.

Attributed to Shakespeare.

Would ye be taught, ye feathered throng,
With love's sweet notes to grace your song,
To pierce the heart with thrilling lay,
Listen to mine Hathaway!
She hath a way to sing so clear,
Phœbus might wondering stop to hear,
To melt the sad, make blithe the gay,
And nature charm, Anne hath a way;
She hath a way,
Anne Hathaway;
To breathe delight, Anne hath a way.

When Envy's breath and rancorous tooth
Do soil and bite fair worth and truth,
And merit to distress betray,
And soothe the heart Anne hath a way.
She hath a way to chase despair,
To heal all grief, to cure all care,
Turn foulest night to fairest day,
Thou know'st, fond heart, Anne hath a way;
She hath a way,
Anne hath a way;
To make grief bliss, Anne hath a way.

Talk not of gems, the orient list,
The diamond, topaz, amethyst,
The emerald mild, the ruby gay;
Talk of my gem, Anne hath a way!
She hath a way, with her bright eye,
Their various lusters to defy—
The jewels she, and the foil they,
So sweet to look, Anne hath a way;
She hath a way,
Anne Hathaway;
To shame bright gems, Anne hath a way.

But were it to my fancy given
To rate her charms, I'd call them heaven:
For though a mortal made of clay,
Angels must love Anne Hathaway;
She hath a way so to control,
To rapture, the imprisoned soul,
And sweetest heaven on earth display,
That to be heaven Anne hath a way;
She hath a way,
Anne Hathaway;
To be heaven's self, Anne hath a way.

DR. DIO KEWIS ON EVENING ENTERTAINMENTS.

Dr. Dio Lewis has written, and Harper and Brothers have just published, a book called "Our Girls," which is so full, from the begining to the end, of wholesome and sensible advice that we wish it could be placed in the hands of every reader of the Bazar.

From its readable pages we make the following extracts concerning the elaborate suppers so much in vogue now at evening parties:

If people have beautiful houses and wealth, and desire to make their party a grand affair, are there not professional players, singers and actors, readers, florists, etc.? Something grand could be given for half the expense of an elaborate supper.

I need hardly hint to bright people of a less pretentious class that social singing, dancing, charades, and a hundred beautiful games are all open to them. These are tenfold more enjoyable than the more stately methods of the rich.

The time will soon come when people of really fine culture will not think of giving their guests a late supper; of the twenty most intellectual and refined homes to which I have been invited in America and Europe not one gave refreshments at an evening party, with perhaps the exception of wine in France and lemonade in this country.

If people have no brains, but have good stomachs, then I advise eating on all occasions; in fact, it is the only thing left. Such people may have already eaten three meals, but when they as emble in the evening at a sociable they had better feed again, and feed hearty; what else is there to do? They can't sit and stare at each other by the hour, and it wouldn't be good manners to lie down on the floor and go to sleep. After they finish the more substantial meats and things they can fill up the rest of the evening with nuts, dough nuts, apples, cider, and other trifling things.

But if the people happen to have a love for music, painting, conversation (the finest of fine arts), bright games, charades, dramatics, or any other of twenty amusements—any thing above cold pork, then I advise them, when assembled in a social way, to give their brains a chance, and not stuff their stomachs; the former is human, the latter is piggish.

Few changes in our social life have afforded me such genuine satisfaction as the recent changes, among a few of our best people, in the forms and methods of hospitality.

The change from, 'Will you have a glass of whisky?' which was addressed to callers fifty years ago, to eat? which was addressed to them twenty five years ago, was, on the whole a great improvement. The change which has now been inaugurated of addressing your hospitality to some thing above the stomach is a greater improvement.

When this has been fairly established house keepers can entertain company in the evening with real pleasure and profit to all concerned. When an evening sociable means a 'big feed,' it involves a great sacrifice; there is roasting, baking and fussing for two or three days, and the expense is such as only a few can afford.

And what is it all for? Why, I can't think of any thing, unless it is to make the company sick. Does any one doubt that eating late in the evening is injurious.

And does any one doubt that the preparation and cost of the supper involve a sacrifice to the housekeeper? If these are admited, I can't imagine any decent apology for the custom.

What shall be done? Every important movement must be inaugurated by individual action.

Let those who have the idea and the moral courage excuse themselves from all evening refreshments and the fashion will soon become general.

It is a real pleasure to say that already thousands have determined upon this course; so that now it is quite safe to entertain company without refreshments.—*Harper's Bazar.*

THE AMERICAN PRESS

There is no thing which more forcibly illustrates the breadth and scope of modern civilization, than the growth of the public press. Especially is this marked in the United States. Take the papers fifty years ago and compare them with those of the present day. The contrast is most marked. Then they were small and dingy; exhibiting no talent, or comparatively none, and most limited in their scope. Now a broad sheet of the metropolis is an epitome of the history of the whole world, the news fresh and copious. Even the smaller weekly papers are magazines of useful information; and perform no mean office in the education and amusement of the people.

The statistics of the newspapers of the United states will illustrate what we have been saying and demonstrate the power they exert. The whole number of periodicals issued in the United States is 5,983. Adding the 353 printed in the Dominion of Canada and 29 in the British Colonies, and there will be a total of 6,438, of which 637 are daily; 118 tri-weekly, 129 semi weekly, 4,642 weekly, 21 bi-weekly, 712 monthly, 100 semi monthly, 14 bi-monthly and 62 quarterly. The average edition of all the papers printed is 1,842, which, multiplied by 6,438, the entire number, gives as the number of copies, 11,858,796; a single issue; while the aggregate issue for the year would be 1,499,922,219. There are 283 publications of a religious character, divided among the various sects. The medical profession has 72 publications; divided among its various schools. Agriculture in its various departments has 906 organs, several of which have a large circulation. Specialties are numerous, the sciences, trades, and business having their special organs; Such is a bird's eye view of the American press.

CONTINENTAL MONEY.

A brief history of the progress of Continental money may not be out of place, because so few of the present generation have ever been correctly informed respecting its operations and details. It is in itself something properly appertaining to an illustration of a chapter on the "War of Independence," and as such we give it:

In June 1775, the first emission was made of $2,000,000. Before the close of that year $3,000,000 more were issued.

In May 1776, $5,000,000 more were issued; in the autumn of the same year, $5,000,000, and in December, $5,000,000 additional. Such frequent and large issues began to reduce their values in the confidence of the people. In the meantime the power of taxing was virtually denied to the confederation. They could only recommend the measures to the States.

The whole amount issued during the war was $400,000,000, but the collections made by the government in various ways cancelled, from time to time, about one half of it; so that the maximum of valuation at no time exceeded $200,000,000, nor did it reach that sum until its depreciation had compelled Congress to take it in and pay it out at $40 for 1 of species.

It kept on at par for the first year, as it was about equal to the amount of specie held in all the colonies, but the quick succession of increase tended to depreciate it until it reached 500 to 1 and finally 1,000 for 1, when it ceased to circulate for any value at all.

Public securities of a similar character were given, bearing such names as loan office certificate, depreciation certificates, final settlements, for services, supplies, etc., and these constituted the public debt at the end of the war. All these were worth but 8 to 1 until 1789, when they were funded and rose to par, and thus made fortunes for many.

Lute A. Taylor, editor of the La Crosse, Wisconsin, Leader, who was an inveterate stammerer writes as follows about the way to cure the habit:

No stammering person ever found any difficulty in singing. The reason of this is that by observing the measure of the music—by keeping time—the organs of speech are kept in such position that enunciation is easy. Apply the same rule to reading or speech and the same result will follow. Let the stammerer take a sentence, say this one—'Leander swam the Hellespont'—and pronounce it by syllables, keeping time with the finger if necessary, letting each syllable occupy the same time, thus—'Le—an—der—swam—the—Hel—les—pont'—and he will not stammer. Let him pronounce slowly at first, then faster, but still keeping the time, with words instead of syllables, and he will be surprised to find that, with very little practice, he will read without stammering, and nearly as rapidly as persons ordinarily talk or read. Then practice this in reading and conversation until the habit is broken up. Perseverance and attention is all that is necessary to perform a perfect cure.

A Quaker gentleman riding in a carriage with a fashionable lady decked with a profusion of jewelry, heard her complain of the cold. Shivering in her lace bonnet and shawl as light as a cobweb, she exclaimed: 'What shall I do to get warm?' 'I really dont know', replied the Quaker, solemnly, 'unless thee should put on another breast pin.'

A man of superior pomposity was once alluded to by Washington Irving as 'a great man, and, in his own estimation, a man of great weight. When he goes to the west he thinks the east tips up.

The democracy have been enjoying a sort of forced crow over the Kentucky election. A year or two ago their governor had nearly 70 000 majority—this year he is elected by some 35,000 majority. The republicans have gained many members in the legislature. North Carolina has gone republican strongly, as also has Montana. The new departure dont seem to be a success down south, and even in Ohio it is uncertain what this modern phase of democracy is going to result in. "Things is working."

THE NORTHERN OHIO FAIR.

In about three weeks the city of Cleveland will see the largest crowd ever assembled there, to view the products of the farm, the dairy, the garden, the poultry yard, the vineyard, the green house, the workshop, the Manufactories, the stock yard, fine arts, the mines,—in fact every thing, in the language of the circular of the board of managers, 'that would conduce to the comfort and happiness of man kind.' Twenty five thousand dollars are offered in premiums for the best trotting. Some of the most celebrated trotting horses in the country will be on hand, saying nothing of the super-excelent stock of bloeded cattle, sheep and swine.

Our readers will remember that all railroads carry for half price, and now will be the time to witness the largest and best fair ever held west of the Alleghenies.

Considerable talk, arising from some misunderstanding, perhaps, has transpirad here since the nomination for judge took place at Alliance the other day. It was understood by some that Judge Tripp, having received a formal nomination of the Carroll delegates, would run for judge. By the last number of the Carroll Free Press we find that all a mistake—Judge Tripp will do no such thing, but as a true repudlican he submits to the voice of the people, and respectfully declines the candidacy. Judge Tripp made a good run—perhaps no other man in the district could have done better against his competitor—which shows that he has hosts of friends in the district; and he will be favorably remembered hereafter.

Somebody came into this office the other day with the idea—how the man came by it we dont know—that this is a neutral paper in politics. The gentleman was honestly mistaken—sure. We have always tried to avert such an imputation, not in as demonstrable a way as some of our cotemporaries manifest, but sufficiently decided to let even the obtuse reader know that we symapthise with the republicans. But we dont go it blind. Whenever the republican party, in our view, is not right, we try to induce it to change its course—especially to come up higher—and would even warn it, if the leaders will not advance that it may tend to evil results. We want to have nothing to do with a neutral paper—to us such are a blank.

The last Carroll Free Price refers to the nomination of Mr. A. C. Wales for senator as one of the best that that could be made. In this idea we think the majority of the people of the district concur. Mr. W. has had but a brief legislative experience, but during that short time he made an impression highly favorable, not only among his many friends at home, but also throughout Ohio, as the right man in the right place. Mr. Wales is a worker, and will see that the interests of the people shall not be trampled upon, if his efforts can avert such a contingency.

Marshal Wellman, for many years one of the most active citizens of this place—this was a long time since—is at present on a visit here, among his relatives and numerous friends. Considering his age and the active life through which he has passed, he appears well, and is glad to meet the many familiar faces of the older citizens. He will probably remain here one or two weeks.

If one tenth of what the New York Sun says of president Grant is true, he is one of the worst men alive. He is an awful tyrant, puts all his and his wife's relations in office—and is a great rascal generally. If the editor could make the president believe he is a relative, he too, might get a fat office, which would stop his clamor.

The Orrville Crescent says there is a new paper, just started at West Salem called the Democratic Adjutator. It must be a new departure paper, as it uses a very original spell.

That fine building of the Hess Bros, on Erie street is almost up, and will soon be under roof.

Travelers have a surfeit of dust just now.

The New York ring of Tammany thieves are being smoked out of their holes. The Times of that city took up the unpublished accounts of the city government and showed when and where and how thousands had been stolen. Now the Tribune takes up the accounts as published by the ring and shows how these accounts have been doctored, how dummies have been used to shield the real thieves, and how, according to the rings best showing, the people of New York city have been fleeced, systematically, out of millions, and all w thin two or three years. One would suppose the tax payers of New York are old geese enjoying, on a hot day, the luxury of having their surplus feathers removed.

Mrs. Prichard, a lady preacher from Wales is supplying for a brief period the Welsh Baptist church at Cincinnati. Of course her sermons are in her native tongue, but her country people speak in the highest terms of her ability.

The Persian Famine seems to sustain the horrors of the first report. At Ispahan, the largest city in Persia though not the capital, there have already been twenty seven thousand well authenticated deaths, and in the provinces, where the dearth first broke out, the mortality is reported to be even worse. This is indeed a dismal record. We can scarcely realize in this broad land of plenty that such a hideous chronicle of death from starvation is indeed well founded. But we know little of the evils of unscrupulous despotism. In India, in the famine two years ago, even according to the statistics published by the British government, the deaths footed up to two millions. Only another couple of years before that there was in the same land yet another famine, in which another million of human souls perished. These are established facts; and in their light we are forced to believe the sad annals we publish of the most hideous famine in modern story.—N. Y. Herald.

WAR IN THE EAST.—In a letter published in the Herald this morning from one of our correspondents in the east, the relations between the Khedive of Egypt and the Sultan of Turkey are concisely stated. The relationship existing between the two powers is anything but friendly, and breach is becoming wider and wider every day. The Viceroy feels the restraints of Turkey grow more irksome, and hostilities are avoided by the tact of the Egyptian, who fully understands the strength of Turkey, and is, therefore not willing to stake everything on the hazard of war, he temporizes, in the hope that some lucky chance may turn up which will result in disadvantages for Turkey, while it also gains for him time to prepare for a struggle which may take place at no distant day.—N.Y. Herald.

SPREAD OF THE CHOLERA.—Our cable dispatches continue to record the progress of the cholera in Europe. From Berlin we learn that in the neighborhood of Stettin it has made its appearance. At Konigsberg during last Tuesday and Wednesday there were one hundred and fifty new cases, sixty-one of which proved fatal. It will thus be seen that this dread visitation, the terror of the people wherever it appeass, is making its way steadily westward, and it behooves the health authorities here to be on their guard and leave no precaution unattended to guard against its approach. —Herald.

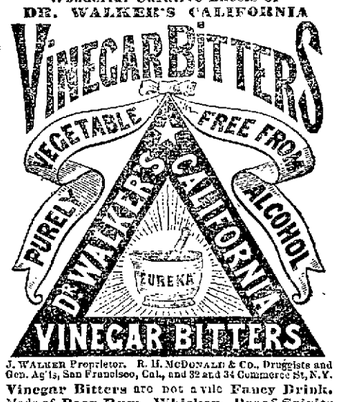
A GREAT MEDICAL DISCOVERY.

MILLIONS Bear Testimony to the Wonderful Curative Effects of DR. WALKER'S CALIFORNIA



J. WALKER Proprietor. R. H. McDONALD & Co., Druggists and Gen. Ag'ts, San Francisco, Cal., and 32 and 34 Commerce St., N.Y.

Vinegar Bitters are not a vile **Fancy Drink,** Made of **Poor Rum, Whiskey, Proof Spirits and Refuse Liquors** doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, **free from all Alcoholic Stimulants.** They are the **GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE,** a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or inflammation of the Liver, and all the Visceral Organs.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these **Bitters** have been most successful. **Such Diseases** are caused by **Vitiated Blood,** which is generally produced by derangement of the **Digestive Organs.**

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald-Head, Sore Eyes, Erisipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins: cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, PASTE, and other **WORMS,** lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

J. WALKER, Proprietor. R. H. McDONALD & CO., Druggists and Gen. Agents, San Francisco, Cal., and 32 and 34 Commerce Street, New York.

☞SOLD BY ALL DRUGGISTS AND DEALERS.

ONE MILLION OF LIVES SAVED!

It is one of the remarkable facts of this remarkable age, not merely that so many persons are victims of dyspepia or indigestion, but its willing victims. Now we would not be understood to say that any one regards dyspepsia with favor, or feels disposed to rank it among the luxuries of life. Far from it. Those who have experienced its tarments would scout such an idea. All dread it, and would gladly dispense with its unpleasant familiarities. There are diseases more acute and painful, and which more frequently prove fatal; but none, the effects of which are more distressing to the body. If there is a wretched being in the world it is

A CONFIRMED DYSPEPTIC.

But it not our intention to discant on the horrors of dyspepsia. To describe them truthfully is simply an impossibility. We have said that dyspepsia is perhaps the most universal of human diseases. This is emphatically the case in the United States. Whether this general prevalence is due to the character of the food, the method of its preparation, or the hasty manner in which it is usually swallowed, is not our province to explain. The great fact with which we are called to deal is this:

DYSPEPSIA PREVAILS

almost universally.

Nearly every other person you meet is a victim, an apparently willing one; for were this not the case, why so many sufferers, when a certain, speedy and safe remedy is within the reach of all who desire to avail themselves of it? But says a dyspeptic, What is this remedy? to which we reply. This great alleviator of human suffering is almost as widely known as the English language. This acknowledged panacea is none other than

HOOFLAND'S GERMAN BITTERS.

Would you know more of the merits of this wonderful medicine than can be learned from the experience of others? Try it yourself, and when it has failed to fulfill the assurance of its efficacy given by the proprietor, then abandon faith in it.

LET IT BE REMEMBERED

first of all, that Hoofland's German Bitters is not a rum beverage.

They are not alcoholic in any sense of the term. They are composed entirely of the pure juice or vital principle of roots. The extracts from which they are compounded are prepared by one of the ablest German chemists. The objections which hold with so much force against preparations of this class, namely—that a desire for intoxicating drinks is stimulated by their use, are not valid in case of the German Bitters. Their effects can be

BENEFICIAL ONLY

in all cases of the biliary system. Hoofland's German Bitters stand without an equal, acting promptly and vigorously on the liver; they remove its torpidity and cause healthful secretion of the bile. They impart vigor and strength to the entire system, causing the patient to feel like another being—in fact, giving him a new lease of life.

THEY PURIFY THE BLOOD,

cleansing the vital fluid of all hurtful impurities and supplanting them with the elements of genuine healthfulness. In a word, there is scarcely a disease in which they cannot be safely and beneficially employed; but in the generally prevalent distressing and dreaded disease, dyspepsia,

THEY STAND UNRIVALED.

Now, there are certain classes of persons to whom exprene bitters are not only unpalatable, but who find it impossible to take them without positive discomfort. For such

HOOFLAND'S GERMAN TONIC

has been prepared. It is intended for use where a slight alcoholic stimulant is required. This tonic contains all the ingredients of the bitters, but so flavored as to remove the extreme bitterness.

HOOFLAND'S TONIC

acts with almost marvelous effect. It not only stimulates the flagging and wasting energies, but invigorates and permanently strengthens its action upon the liver and stomach through perhaps less prompt than the Bitters, when the same quality is taken is none the less certain. Indigestion, biliousness, physical or nervous prostration, yield readily to its potent influence. It gives strength to weakness, throws dependency to the winds, and starts the restored invalid upon a new and gladsome career. But Dr. Hoofland's benefactions to the human race are not confined to his celebrated

GERMAN BITTERS,

or his invaluable Tonic. He has prepared another medicine, which is rapidly winning its way to popular favor because of its intrinsic merits. This is

HOOFLAND'S PODOPHYLLIN PILLS

a perfect substitute for mercury, without any of mercury's evil qualities.

These wonderful pills which are intended to act upon the liver, are mainly composed of Podophyllin, or the

VITAL PRINCIPLE OF MANDRAKE ROOT.

Now we desire the reader to distinctly understand that this extract of the Mandrake is many times more powerful than the Mandrake itself. It is the medical virtues of this health giving plant in a perfectly pure and highly concentrated form. Hence it is that two of the Podophyllin pills constitue a full dose, while anywhere six to eight or a handful of other preperations of the Mandrake are required. The Podophyllin

ACTS DIRECTLY ON THE LIVER

stimulating its functions and causing it to make its biliary secretions in regular and proper quantities. The injurious results which invariably follow the use of mercury is entirely avoided by their use.

Possessing desirable qualities, the Podophyllin becomes invaluable as a

FAMILY MEDICINE

No household shou'd be without them. They are perfectly safe, require but two for an ordinary dose are prompt and efficient in action, and when used in connection with Dr. Hoofland's German Bitters, or Tonic, may be regarded as certain specifics in all cases of liver complaint dyspepsia, or any of the disorders to which the system is ordinarily subject. The

PODOPHYLLIN PILLS

act upon the stomach and bowels, carrying off improper obstructions, while the Bitters or Tonic purify the blood.

JURUBEBA

WHAT IS IT?

It is a sure and perfect remedy for all diseases of the liver and spleen, enlargement or obstruction of intestines, urinary, uterine or abdominal organs, poverty or a want of blood; intermittent or remittent fevers, inflamation of the liver, dropsy, sluggish circulation of the blood, abscesses, tumors, jaundice, scrofula, dyspepsia, ague and fevers or their concomittants.

Dr. Wells having become aware of the extraordinary medicinal properties of the south American plant, called

JURUBEBA

sent a special commission to that country to procure it in its native purity, and having found its wonderful curative properties to even excell the anticipations formed by its great reputation, has concluded to offer it to the public, and is happy to state that he has perfected arrangements for a regular monthly supply of this wonderful plant. He has spent much time in experimenting and investigating as to the most efficient preparation from it, for popular use, and has for some time used in his own practice with most happy results the effectual medicine now presented to the public as

Dr Wells' Extract of Jurubeba.

And he confidently recommends it to every family as a household remedy which should be freely taken as a blood purifier in all derangements of the system and to animate and fortify all weak and lymphatic temperaments. CHEAP FARMS—CHEAP TRAVEL!
Chicago, Rock Island and Pacific Railroad Company.
500,000 *Acres Iowa choice Lands*

This company is now offering for sale about six hundred thousand acres of the finest agricultural lands in the West. The company sells only to actual settlers, and the prices are exceedingly reasonable, ranging from $5 to $15 per acre—the average being about $8. The greater part of these lands are situated along the line of its railroad between the cities of Des Moines and Council Bluffs, and are in the most accessible and fertile region in the state.

Sales made for cash or on credit long enough to enable any industrious man to pay for the land out of its crops.

These lands are held under a title direct from the General Government, and are not mortgaged or encumbered in any way. Full warranty deeds given to purchasers.

For maps, pamphlets, or other information respecting them, address EBENEZER COOK, land commissioner, Daveuport, Iowa.

Excursion tickets are sold at the company's offices at Chicago, and all other principal stations on its line, and if the purchaser buys land the amount paid for the ticket is applied on the purchase money.

LOST on Sunday night a small package containing six dollars in money, which was the property of a young lady. The finder will confer a great favor by leaving the same at the store of J. B. Estep, or giving information where it can be obtained.

Our Carroll county neighbors, and especially bro Hays of the Chronicle, takes on terribly about the nomination of Judge Frease. The last number of that paper blarts out in prose and song on the question, even crucifying its readers with columns on the subject. When a man desires to be funny it is one of his unalienable rights to be so, and we hope bro H. enjoys himself hugely. That "Jim Underhill" is a terrible mogul to the democracy.

The principal proprietor, if not the sole one, (Jacob Vanderbilt, a New York millionaire,) of the Westfield, the ferry boat which blew up some weeks since, killing nearly 100 persons, with two others implicated, have been adjudged by the coroner's jury, as guilty of carelessness, to say the least, and were accordingly locked up a day or two in close quarters. George Law, however bailed them out, and the court will now take charge of their cases.

A picture man visited us a few days ago, and darling, his stay sold lots of pictures, consisting of beautiful chromos. Perhaps a few got good bargains, then there were others who did not—it was a sort of chance affair, and in that case the seller generally has the long end of the lever.

Street peddlers favored crowds of our people several evenings of last week with songs and pills and other truck, which the buyers know more about than we do, or even wish to.

The soap establishment is progressing rapidly, and will soon be ready to manufacture this needed article. The large building which they occupy is well adapted for the purpose to which it is to be applied.

A tabular statement appears in some of the papers, in which the numbers of certain kinds of stock in each county in Ohio, also, for the whole state, is given for 1870–1871. For Stark the following results are given:

Stark.	1870	1871	Increase.
Horses	12,619	12,717	98
Cattle	25,618	29,156	3,538
Mules	193	207	11

Our friends and fellow townsmen, Messrs J. E. McLain and Joseph Coleman, who started for California and Washington territory, some weeks ago, we presume are safely at their dest nation—at Seattle. We infer this from the fact that Mr. Coleman sent copies of papers published at Portland, Oregon—the daily Bulletin and the Democratic Era, to his brother here. Both are fine looking papers, and appear to be conducted with a spirit and ability which characterize Western newspapers. Messrs McLain and Coleman will not return here for some weeks.

The Ohio State Camp Meeting, which began at Canton on the 15th, as to numbers in attendance, is a big thing. On Sunday no less than from 6,000 to 10,000 is estimated to have been on the grounds. More than 200 tents surround the ground consecrated to the camp meeting proper, and these are arranged in three rows, or rather concentric circles, the ends of the tents being toward the center and circumference of the circle. Many of these tents are provided with carpeted floors, beds and other household conveniences. Rules to be observed were conspicuous all over the fair grounds—these required good order, which seemed to prevail, and prescribed the programme of religious services during the meeting. The routine of duties is such as is usual at this class of meetings—preaching, exhortation, praying, singing, &c. Requests in writing are often sent to the managers, asking the prayers of those present in behalf of one or more parties, which are read before preaching. One read thus: A sister near ——— asks the prayers of the congregation to interpose for her brother, as he is about lapsing into Universalism. An organized police is constantly circulating over the premises, so good order is the rule. On Sunday there was not as much shouting as we have heard at similar places—and no jumping like there was in past days. Bro. Miller of Brimstone Corner, Pittsburg, preached up sanctification of a thorough character, a position on which all the brethren are not in full harmony.

Mr. Fordyce Seely, who is insured in the Cincinnati Mutual Health and Accident Insurance Company, of which Mr. I. S. Crooks is agent, acknowledges the recent of ten dollars, being his benefit for a week's disability to perform labor. This is most comendable promptness, and comes good to a sick man, especially when it dont cost him much to secure it.

Some where near 12 o'clock on Sunday night the fire bell gave an alarm. A frame building belonging to Nicholas Schwarm, situated just north of town, was found to be on fire. The firemen were there but too late, as the fire had made rapid progress and they had a long distance to go to reach the place. The house was an old frame, not very valuable, and had been for sometime unoccupied. A family was just about to move into it.

It begins to look very much as if we shall soon have plenty of light in coming dark nights, judging from the lamp posts which are put up in this vicinity.

Destructive fires have recently visited Youngstown and Ravanna. An extensive carriage establishment was destroyed at Ravanna. It will soon be rebuilt.

The county fair for Stark, let it be recollected, will begin on Tuesday September 26, and continue four days. A fine exhibition of agricultural productions may be expectial, as this has been a season of bountiful crops.

The last few weeks, in addition to the great heat in many places, there has also been general drouth—comparatively little rain falling anywhere in the country.

Sweet potatoes are already here as may be seen at Bruce & Co's and P. G. Albright's.

Myers & Willison are about to manufacture an improved scraper, an article that combines all the advantages which can be embodied in such an implement. It is so constructed as to do its work well, with facility, and save a great amount of hard labor. There is nothing complicated about it—its great advantages consist in its simplicity and efficiency. All who have seen this scraper are convinced that it exceeds anything in that way that has yet appeared. Call and see it.

A terrible calamity happened to two sons of Mahlon Briggs, of New Lisben, of which the Buckeye Stare of last week, gives the following account.

Mr. Mahlon Briggs, one of our old and most highly respected citizens, received a telegram on Saturday last, containing the heart rendering intelligence of the death of two of his sons, William and George Briggs, two grand children, son and daughter of William Briggs, and a hired man. The brothers resided near Eddyville, Iowa. The following are the particulars of the sad affair, as near as we can learn: There was an old coal shaft on the farm of William Briggs, which he had decided to reopen, and his son descended into the shaft to bail out the water, and was immediately suffocated by fire damp. His sister, not hearing him, also descended, and met with the same fate. Mr. Briggs coming to the mine with his brother and hired man, and not being able to hear his children, also descended into the shaft, followed by the other man, and all were suffocated; thus making five persons who found untimely graves in the bowels of the earth. At last accounts two of the bodies had been recovered. Mr. Briggs and family have the sympathy of the entire community in this their truly sad bereavement.

These young men left their home for Iowa some years ago, and being industrious and enterprising accumilated some $15,000 or $20,000 worth of property. They are thus suddenly removed even before the prime of life, leaving bereaved relatives and a vast insad taking off.

MAGNIFICENT ESTABLISHMENT.

Forepaugh's immense menagerie, museum and circus, will exhibit at Massillon, on the afternoon and evening of Tuesday, August 29.

It is so rarely that a really meritorious exhibition visits this city and county, that we take especial pleasure in commending Forepaugh's 400-men and-horse-power establishment to our readers; and confidently assure them they will get more then an equivalent for their money in attending Mr. Forepaugh's exhibition.

The menagerie is exhibited in a tent separated from the circus, and in addition to the performing elephants, the hippopotamus, kangaroos, ostraches, Baby Lions, eland and many other rare animals, to be seen in no other menagerie but Forepaugh's, there are three hundred wild animals and rare birds, constituting by for the largest menagerie now traveling.

TWO MAMMOTH TENTS

are used, and the menagerie is completely separated from the circus which is held in another tent. By this commendable arrangement, a very large class in our community can attend the menagerie who would otherwise be deterred from so doing.

ONE TICKET,

and one price, admits to all the tents—that is 50cts for adults, and 25 cts for children, enables one to attend the museum and circus, —and as two tents are in use, it is optional with the ticket holder whether he visit one or both tents.

A GRAND STREET DISPLAY

will be made on the morning of the 29th. The Great Golden Chariot will be drawn by 20 arabian horses; a pair of elephants, decked in silk velvet, and eight camels gayly caparisoned will follow; harnessed to and drawing the African Eland, a drove of Shetland ponies drawing a beautiful Bird Bower will follow, and then 150 horses gayly plumed, drivers uniformed, will appear harnessed to *one mile* of animal dens. With pleasant weather, we expect to see all Stark county here on the 29th.

The latest novel out is that which is credted to the Chicago Times, and reproduced in the Rep & Rep of last week. Our people here don't know anything about the hero or shero of the story—about that theater that burned down last winter, nor any other particulars therein detailed. For these reasons the fuetillon looks mythical, and will apply about as well to Smoketown as to Massillon.

After the long recess school will commence on Monday the 3d September. Prof. Jones, the Superintendent, has been absent some weeks, much of the time on a visit to his native state, Massachusetts.

Silk warp flannel at Ricks'.

We regret to lose so good a citizen as Mr. D. W. Huntsman, who as a notice elsewhere indicates, desires to sell his property here. But the inducements offered him to go into business at Allegheny City, are decidedly attractive, and no one can think amiss of his going there under such auspices. We hope he will be successful, according to his anticipations, and as he justly deserves.

Taylor Clay & Co. have purchased the furniture store of Huntsman & Mong, just west of Warwick & Co's store. They expect to carry on the business which has been so successful there, and propose to keep on hand the best quality of goods in their line. Our citizens may rely on it that they can be supplied with furniture of the latest styles and best finish, and at as fair rates as the market affords. The advertisement of this new firm may be seen elsewhere, in which they indicate more fully the particulars of their business. They have a pretty good knowledge of the wants of our citizens in their line, and will try to anticipate them in keeping what is needed in the varied line of articles necessary to meet their needs.

The storm of rain, wind and lightning, on last Wednesday, which visited this place, cooled down the air for a day or two, so that it was almost necessary to have fires for comfort. On Thursday night the northern lights were visible.

Joseph Genet a notice of whose foundery we made some time ago, near Myers & Willison's manufacturing establishment, will be at work in a few days. Mr. G. has the reputation of being one among the best mechanics in his department, and we hope his enterprise will be a success. He will enter into the manufacture of plows somewhat extensively. That trade is a good one in this part of the country, as there are a great many farmers, all of whom need this indispensable implement. And they know what a good article is because they understand their business.

The last Summit Beacon, of Akron gives a somewhat detailed account of a shooting and stabbing affair which lately occurred in that county. It is but another recital of the results of drunkenness—and drunk on beer at that—to add to the already long catalogue of crimes resulting from this prolific source of evil. Semler, son-in-law of Kepler, abused his wife so that she left his house and went to her father for protection. It was there the tragedy occurred. Semler, the drunken brute, went to get his wife to return home; she refused, when he dragged her out of bed. Her father interfered in her behalf. Then the shooting and stabbing followed. Both men were injured—Kepler is not expected to live. Kepler has since died.

F. & A. Masons . . . . . Monday evening

Debility and Emaciation.

Both result from the lack of ability to convert the food into nutriment. How necessary, then, for those suffering from these alarming symptoms to immediately resort to a remedy that will strengthen the stomach and digestive organs. For as soon as this desirable object has been accomplished the health improves, and the patient resumes his usual personal appearance. Hostetter's Stomach Bitters have attaindd a world wide reputation for such cases, and have been proven the safest and best means of removing constipation, toning the stomach, giving energy to the liver and relieving every symtom of nervousness and depression of spirits. Its cheering and beneficial effects are highly spoken of by thousands, who owe to it their restoration to health. No restorative in the annals of medicine has attained the same popularity in the short space of time it has been before the public, or has won the high endorsement accorded to this excellent tonic. Many other preparations, purporting to be correctives and restoratives, have been introduced, and have perished one by one, while the popularity of Hostetter's Stomach Bitters continues to increase, and is now recognized as a standard household remedy. The success which attends the use of the bitters evinces at once its virtues in all casas of debility and disease of the stomach. Certificates, almost without number, have been published, attesting its truly miraculous power in removing those painful and fearful diseases. At this it seems idle to do more than call attention to the great remedy of the age, in order to awaken public attention to its excellence. It is the only preparation of the kind that is reliable in all cases, and it is therefore worthy of the consideration of the afflicted.

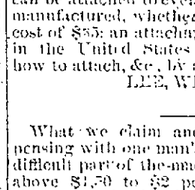
Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.



The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and at length cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas; Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Uterous* affections of the muscular and nervous systems.

Syphilis or Venereal and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matter in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

A little girl came into my house one day, and some apple parings lay on a plate on the table. After sitting awhile she said: 'I smell apples!' 'Yes I guess you smell those parings on the plate,' I replied. 'No,' said she. 'Taint them I smell; I smell whole apples.'

'Mother,' said a little girl who was engaged in making her doll an apron. 'I believe I will be duchess when I grow up.' 'How do you ever expect to become a duchess, my daughter?' her mother asked. 'By marrying a Dutchman, to be sure.' replied the girl.

Two little girls an eight and a ten year old, were gravely discussing the question of wearing ear rings. One thought it wicked. The other was sure it could not be, for so many good people wear them. The other replied: 'Well, I don't care; if it wasn't wicked God would have made holes in our ears.'

A new game called the 'dot' game, has been introduced, and is said to afford considerable amusement. Each player must be provided with pencil and paper. Let one of the party read aloud—distinctly and not too fast—and as he or she reads, let the rest each make a dot for every word read. When the page is read, count the words, and let each player count his dots and see who has been accurately up to time.

A rural youth of eighteen summers invested in a banana in the cars the other day. He carefully removed the peel and cut it up in small bits, eyeing it anxiously as he did so. When this was done he picked up the peel shook it in his lap, and finally threw the pieces out of the window, remarking as he did so, 'That is the fust of them prize packages I ever bought, and it is the last you bet.'

The tunnel under Mount Cenis still encounters difficulties, the last of which is the want of ventilation. The heat inside the tunnel is intense, and when the first train passed through, two boys or three men were suffocated by smoke of the engine. The passage is so long that it is impossible to make use of stationary engines at either end, while at the same time, no current of air can be forced through. Science, however, will doubtless surmount or tunnel this difficulty, as it has done the mountain.

One day a trader chief came to join my church with his two wives—one old and ugly, the other a handsome young negress.

'That will never do," I cried; 'my religion allows a man but one wife. Choose one for the partner of your joys and sorrows, and make suitable provision for the other.'

They all went away, looking very crest fallen. A week or two afterward the old chief came back, leading the young and pretty one, both looking very happy.

"Me come back," he said; "me all ready now."

'That is right,' said I; 'and pray, how have you disposed of the other wife?'

'All right,' he said; 'me eat her up!'

Dr. J. LONG,

Eclectic Physician,

Has located himself at Massillon, O., for the treatment of

Female & Chronic Diseases.

Office east of the Park, second door of Mr. Falke's new building.

All consultations and examinations of patients made free of charge.

Dr. Long examines and explains your disease without asking any questions. If he understands your case you know it, and cannot be deceived. If he cannot tell your disease, and how you feel without asking questions he does not consider himself competent to treat your case. This is the criterion to go by, and patients should not be satisfied with any other. This is the only direct and positive evidence of my ability as a scientific physician, and by this standard I am willing to be judged.

A proper diagnosis of local disease, without constitutional symptoms, that is, not affecting the system generally, must depend upon the judgment of both patient and physician.

Give Dr. Long a call, and satisfy yourselves whether he understands your cases sufficiently well to treat them successfully.

Dr. Long may be consulted in the German and English languages. Address letters,

JAMES LONG, M. D.,

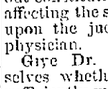
Manhood; how Lost, how Restored.



Just published, a new edition of Dr. CULVERWELL'S Celebrated Essay on the radical cure, without medicine, of Spermatorrhœa, or Seminal weakness, involuntary Seminal Losses, Impotency, Mental and Physical Incapacity, Impediments to Marriage, etc.; also, Consumption, Epilepsy and Fits, induced by self indulgence or sexual extravagance.

Price in a sealed envelope only six cents.

The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' successful practice that the alarming consequences of self abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This lecture should be in the hands of every youth and every man in the land.

Sent under seal, in a plain envelope, to any address, postpaid on receipt of six cents or two post stamps.

DR. AUGUSTUS SLEE

Treats all private diseases with great success Spermatorrhœa, or seminal weakness and impotency, caused by self abuse, etc—producing General Debility of the body, Indigestion, want of proper Manliness, Loss of Memory, Indolence, reducing the System so as to render Marriage unadvisable—Permanently Cured.

Long standing constitutional disease skillfully treated and cured.

Effects of Mercury Eradicated.

The doctor gives particular attention to Female complaints. Sterility, Amenorrhœa, Menorrhagia, and all such diseases, causing annoyance and interfering with the general health and enjoyment of life, invariably removed.

Send for the doctor's medical pamphlet, treatire, in plain language, on venereal diseases, enabling the afflicted to understand their own complaints. Free at office or sent securely sealed, for six cents.

Ample accomodations for patients from a distance at the house.

Office hours from 9 A. M to 8 P. M., Sundays excepted All communications to be addressed DR AUGUSTUS SLEE,
264 Penn street, Pittsburg, Pa.

DR. WHITTIER

Continues to treat all private diseases, syphillis in all its forms, gonorrhœa, gleet, stricture, orchitis, and all urinary diseases, and the effects of mercury are completely eradicated; spermatorrhœa or seminal weakness and impotency, resulting from self abuse or other causes, and which produce some of the following effects, as blotches, bodily weakness, indigestion, consumption, aversion to society, unmanliness, dread of future events, loss of memory, indolence, nocturnal emissions; and finally so prostrating the sexual system as to render marriage unsatisfactory, and therefore imprudent, are per a nently cured.

It is self evident that the physician who confines himself exclusively to the study of a certain class of diseases and treats thousands of cases every year must acquire a greater skill in that speciality than one in general practice.

The establishment, comprising ten ample rooms, is central. When it is not convenient to visit the city, the doctor's opinion can be obtained by giving a written statement of the case, and medicines can be sent by mail or express.

The doctor publishes a medical pamphlet of fifty pages that gives a full exposition of venereal and private diseases that can be had free at office or by mail, in sealed envelope, for two stamps. Every sentence contains instruction to the afflicted, and enabling them to determine the precise nature of their complaints.

COMPOUND FLUID

Extract Catawba

GRAPE PILLS.

Component Parts—Fluid Extract Rhubarb and Fluid Extract Catawba La Grape Juice.

For Liver Complaints, Jaundice, Bilious Affections, Sick or Nervous Headache, Costiveness, etc. Purely vegetable containing no Mercury, Minerals or Dêleterious drugs.

H

These pills are the most eligibtfully pleasant purgative, superseding castor oil, salts, magnesia, etc. There is nothing more acceptable to the stomach. They give tone and cause neither nausea nor griping pains. They are composed of the finest ingredients. After a few day's use of them, such an invigoration of the entire system takes place as to appear miraculous to the weak and enervated, whether arising from imprudence or disease. H. T. Helmbold's Compound Fluid Extract Catawba Grape Pills are not sugar coated, from the fact that sugar coated pills do not dissolve, but pass through the stomach without dissolving, consequently, do not produce the desired effect. The Catawba Grape Pills, being pleasant in taste and odor, do not necessitate their being sugar coated, Price 50 cents per box.

E

Henry T. Helmbold's

Highly Concentrated Compound

Fluid Extract Sarsaparilla

Will radically exterminate from the system scrofula, syphilis, fever sores, ulcers sore eyes sore legs, sore mouth, sore head, bronchitis, skin diseases, salt rheum, cankers, runnings from the ear, white swellings tumors, cancerous affections, nodes, rickets, glandular swellings, night sweats, rash, dyspepsia, and all diseases that have been established in the system for years.

L

Being prepared expressly for the above complaints, its blood purifying propensities are greater than any other preparation of Sarsaparilla. It gives the complection a clear and healthy color, and restores the patient to a state of health and purity. And is the only reliable remedy for the cure of pains and swellings of the bones, ulcerations of the throat and legs, blotches, pimbles, erysipelas and all scaly eruptions of the skin, and beautifying the complexion. Price $1,50 per bottle.

M

Henry T. Helmbold's

CONCENTRATED

Fluid Extract Buchu,

The Great Diuretic, has cured every case of diabetes in which it has been given. Irritation of the neck of the bladder and inflamation of the kidneys, ulceration of the kidneys and bladder, retention of the urine, gravel, milky discharges, and for enfeebled and delicate constitutions of both sexes, attended with loss of memory, indisposition, weak nerves, trembling, pain in the back, hot hands, dryness of the skin, and a host of other symptoms. Used by persons from the ages of eighteen to twenty-five, and from thirty-five to fifty-five, or in the decline or change of life; after confinement or labor pains; bed wetting in children.

B

Helmbold's Extract Buchu is Diuretic and blood purifying, and cures diseases arising from dissipation, excess and imprudences in life, impurities of the blood, etc., supersedes copaiby in affections in which it is used, and syphilic affections—in these affections used in connection with Helmbold's rose wash.

Ladies, In many affections peculiar to ladies, the buchu is unequaled by any other remedy—as in chlorosis, irregularity, ulcerated state of the uterus, leucorrhœa or whites sterility, and for all complaints incident to the sex, whether arising from indiscretion or dissipation. It is prescribed by physicians and midwives for the enfeebled and delicate constitutions of both sexes, and all ages.

O

H. T. HELMBOLD'S EXTRACT BUCHU cures diseases arising from imprudences habits of dissipation, etc, in all their stages, at little expense, little or no change in diet, no inconvenience, and no exposure. It causes a frequent desire, and gives strength to urinate, thereby removing obstructions, preventing and curing strictures of the urethra, so frequent in this class of diseases.

Use Helmbold's Extract Buchu for all affections and diseases of the urinary organs, whether existing in male or female, from whatever cause originating and no matter c how long standing. Price $1,50 cents per bottle.

L

HELMBOLD'S IMPROVED ROSE WASH cannot be surpassed as a face wash, and will be found the only specific remedy in every species of cutaneous affection. It speedily eradicates pimples, spots, indurations of the cutaneous membrane, etc., dispels redness and incipient inflamation, hives, rash, moth patches, dryness of the scalp or skin, frost bites, and all purposes for which salves and ointments are used. It is an excellent Lotion for diseases of a syphilitic nature, and as an injection for diseases of the urinary organs, arising from habits of dissipation, used in connection with the extracts Buchu, Sarsaparilla, and Catawaba Grape Pills, in such diseases as recommended cannot be surpassed. Price $1 per bottle.

D

Full and explicit directions accompanying the medicines. Evidence of the most responsible and reliable character furnished on application, with hundreds of thousands of living witnesses, and upward of 20,000 unsolicited certificates and recommendatory letters, many of which are from the highest sources, including eminent physicians, clergymen, statesmen, etc. The proprietor has never resorted to their publication in the newspapers: he does not do this from the fact that his articles rank as standard preparations, and do not need to be propped up by certificates.
